Board of Education Recognizes Student Achievement

Students in Windsor Locks were honored for their academic performance on the 2011 Connecticut Mastery Test (CMT) and Connecticut Academic Performance Test (CAPT) at the Board of Education meeting held on October 13, 2011. Students in grades three through eight and grade ten were recognized for their achievement at the Advanced level (highest level) on all three/four of the subtests of Math, Reading, Writing and Science on the State assessments. It is an accomplishment when a student achieves the Advanced status on one of the academic areas, however, these students have distinguished themselves among Connecticut school children by achieving the Advanced level on all of the subtests.

The Certificates of Outstanding Achievement were presented to the students by School Principals. Mr. Sweeney acknowledged the hard work, perseverance, and commitment to excellence demonstrated by these students on a daily basis. Margaret Byrne, on behalf of the entire Board of Education, congratulated all the students who worked hard to achieve the district goal of 80% mastery at goal and beyond level on the CMT/CAPT.

Approximately 100 individuals including students, parents, siblings and relatives attended the recognition program at the Board meeting which was followed by a brief reception for everyone in attendance.

(Students listed on next page)
